

Steps to follow when running a session using LEARM

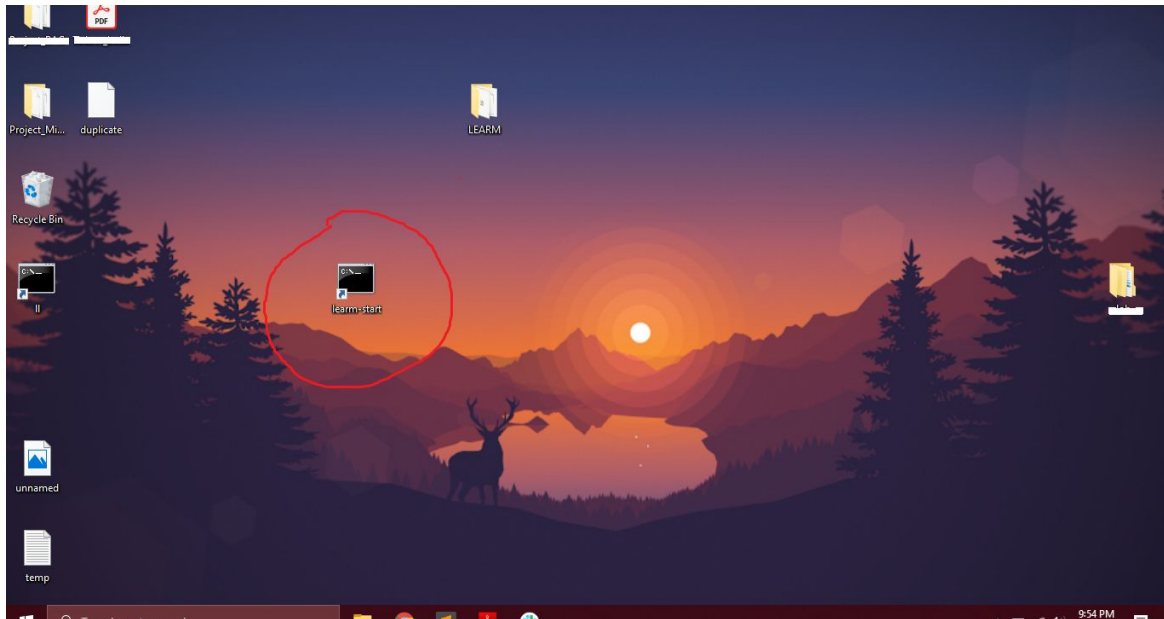

1. Confirm if there is a folder named “LEARM” on the desktop.

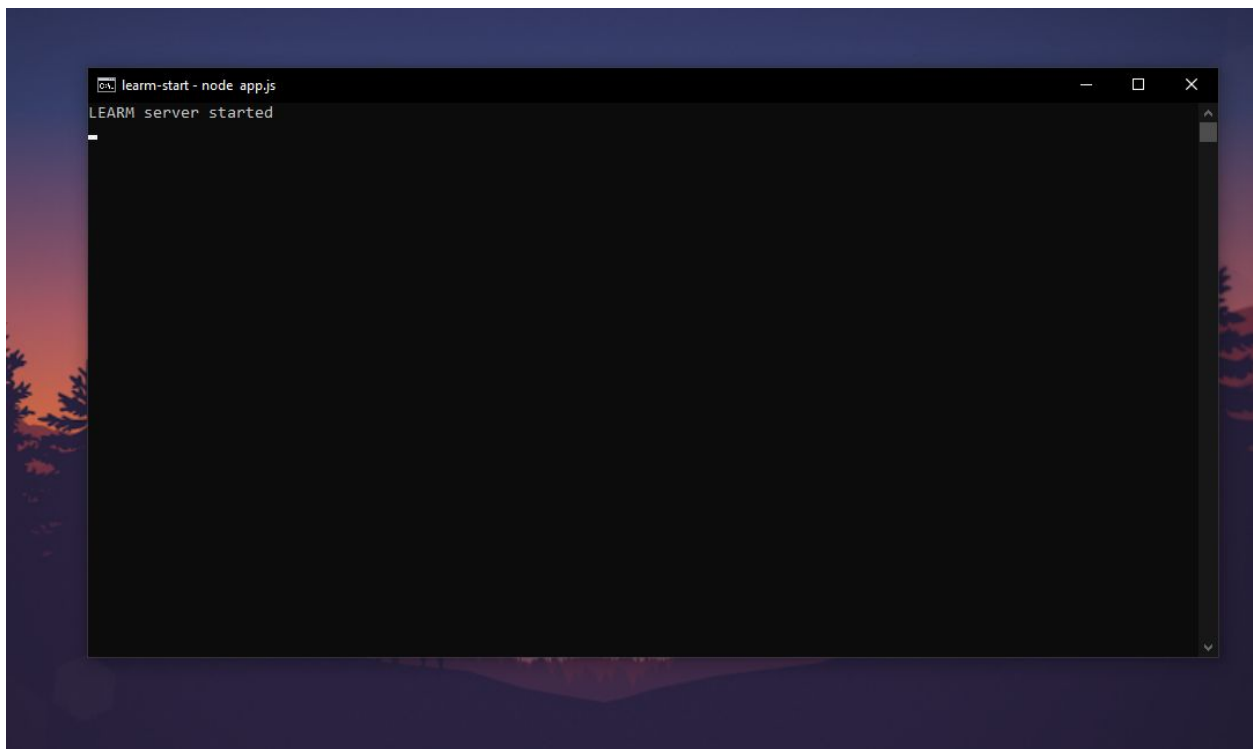

Contents of this folder should look like this:

2. Confirm if there is an icon named “learn-start” on the desktop.

3. Double click on the icon mentioned in the last step. A window like this should open.

4. Now go to the browser and visit <http://localhost:3000/>. This should load LEARM on the browser.
